

## MKJ Series Overview

Versatility, performance and reliability in a miniaturized footprint, enables unparalleled functionality.

The MKJ family of miniature circular connectors provides similar electrical and mechanical characteristics as larger and heavier Military Standard Environmental connectors, but in a smaller form factor. Bringing together a unique combination of design, functionality and flexibility, Cannon's MKJ connectors excel in delivering proven and reliable solutions that perform even in the harshest environments. The MKJ series comes with rear accessory threads or integral band platform for direct attachment of cable shield and overmold.

### Key Features

- Plugs and receptacles are environmentally sealed for use in the harshest environments
- RoHS-compliant configurations
- Teflon nickel, black zinc nickel and olive drab cadmium plating maintain robust reliability for 500 hours of salt spray
- Qualified to US Nett Warrior specification, European GOSSRA and NATO STANAG 4695 standards
- EMI shielding - up to 40dB attenuation, 100MHz to 1000MHz
- PCB mount jam nut for enhanced EMI and vibration resistance performance
- Cable assemblies and application specific shell configurations available

Configuration	MKJ0	MKJ1	MKJ3	MKJ4	MKJ5	MKJ Clip Lock	MKJ Warrior
Coupling	UNC thread	Double start	Bayonet	Breakaway	Triple start	Clip latching	Breakaway
Hardware	Aluminum/stainless steel						
Mating cycles	2000	2000	250 Aluminum 2000 Stainless Steel	2000	500	500	2000
Materials	Shells - Aluminum alloy or stainless steel   Insulators - thermoplastic Seals - fluorosilicone   Contacts - copper alloy with gold over nickel plating						
Plating	Black anodized - black passivated, teflon nickel, OD cadmium over electroless nickel, electroless nickel - black, Zinc nickel-black (RoHS-compliant), zinc nickel-black (non-RoHS-compliant), selective plating (MKJ Warrior)						
EMI shielding	Good	Good	Good	Excellent	Excellent	N/A	Excellent
